Kade Dunstone — Full Brand Strategy v1.0

01 Three Brands. One Ecosystem.

02 THE ECOSYSTEM

Three distinct brands. One person at the centre.

KADE DUNSTONE (Personal Brand)
@kade_dunstone_ — Threads + Instagram
The thinking, the journey, the builder

feeds into

BODY RECODE™	AI CO-FOUNDER METHOD
@body_recode_	aicofoundermethod.com
Performance coaching system	Founder AI framework
Scorecard → Coaching (\$195–295/week)	Ebook (\$37–47 AUD)
Health + performance audience	Founder + creator audience

The personal brand is the bridge. It does not sell either product directly. It builds the trust that makes both products the obvious next step.

03 BRAND 1 — KADE DUNSTONE (PERSONAL)

Positioning

Kade Dunstone is a performance coach, systems thinker, and software builder who has rebuilt his identity, career, and direction multiple times - and built frameworks out of every rebuild.

He is not a fitness influencer. He is not a motivational speaker. He is not a generic founder content creator.

He is someone who learned to interpret before acting - and built systems around that principle across the body, business, and software.

The platform is the proof. Most coaches rent software. Kade built his own - a full coaching and CRM platform - using the same AI co-founder principles he teaches.

The Three Rebuilds (Core Story)

Every piece of content connects back to one of these three moments.

Rebuild 1 — Military discharge Built toward soldier from childhood. Medically discharged due to structural leg issues. Lost the identity he had constructed for years. What it produced: A deep understanding of the body, physical limitation, and how structure creates stability when direction is lost.

Rebuild 2 — Commercial fitness exit Helped build and operate high-performing gym environments across Australia. Chose to step away due to misalignment — not lack of capability. What it produced: The understanding that scale without systems creates noise. Systems create leverage. Sessions are not a business.

Rebuild 3 — 20-year relationship end Walked away from a shared life and business. Rebuilt self-trust and clarity from scratch. What it produced: The realisation that people don't lose performance — they lose clarity. Clarity is upstream of everything.

The Build — Body Recode Platform After three rebuilds, stopped renting other people's software and built his own. A full coaching and CRM platform - upstream client assessment, downstream performance coaching operations, full business dashboard - built using AI as a co-founder. What it produced: Proof that the principles are real. If you can interpret, structure, and execute - you can build anything.

Core Philosophy

Interpret before you act.

Without correct interpretation — effort is misdirected, progress stalls, burnout increases. With correct interpretation — decisions become clear, execution becomes effective, results become repeatable.

This applies to the body. To business. To identity.

Contrarian Positions (Content Foundation)

These are the beliefs that drive all content. Each is a post, a thread, a video.

1. Most coaches prescribe without interpreting first
2. Effort is not the problem. Misdirected effort is.
3. You cannot out-train a nervous system in protection mode

4. Most people don't have a discipline problem. They have a clarity problem.
5. Systems scale. Hustle doesn't.
6. Rebuilding is not failure. It is the process of building better structure.
7. The body is not broken. It is being misread.
8. AI does not create value. It distributes structured value. If your thinking isn't structured, AI amplifies noise.
9. Most coaching businesses deliver sessions. They should be delivering systems.
10. Identity determines direction. Get the identity wrong and the strategy never lands.
11. Most coaches rent software built by someone else. Building your own forces you to understand your business at a different level.
12. You don't need to know how to code. You need to know what you're building and why. AI handles the rest.

Platform Spec

Instagram: @kade_dunstone_ **Threads:** @kade_dunstone_

Bio (recommended):

I stopped writing programs and started building systems.
Performance coach. Founder. Systems thinker.
Body Recode™ + AI Co-Founder Method

Bio link: - Instagram: bodyrecode.au/scorecard?source=instagram_kade - Threads:
bodyrecode.au/scorecard?source=threads_kade

Profile photo: Clean headshot. Dark background. On-brand.

Content Pillars

Pillar 1 - Performance and Body Systems What happens when the body is interpreted correctly before anything is prescribed. Personal angle — more raw and experiential than @body_recode_. - What 20+ years in the industry taught that no qualification covers - Nervous system and performance - Why effort without interpretation fails - The body state framework explained through personal experience

Pillar 2 - Thinking and Interpretation The meta-skill behind all of Kade's frameworks. - Interpretation vs prescription - Pattern recognition - Decision-making under clarity vs confusion - Systems thinking applied to real problems - The Pause-Reflect-Document model in practice

Pillar 3 - AI and Leverage The AI Co-Founder Method. Building structured IP. Using AI as a thinking partner. And building the actual software to prove it. - How AI amplifies clarity (and noise if clarity doesn't

exist) - Building in public - the software build documented in real time - IP extraction and structuring - What happens when you treat AI as a co-founder, not a tool - Most coaches rent software. I built mine. - What you learn about your own business when you design the software for it - The Body Recode platform as a live case study

Pillar 4 - Rebuild and Identity The personal story. The three rebuilds. What was lost and what was built. - Military discharge - Industry exit - Relationship end and restart - What identity fragmentation feels like and how structure repairs it

Posting Cadence

Threads - Primary thinking platform - Daily or near-daily - Short observations, contrarian takes, thread breakdowns - No graphics needed

Instagram - Secondary, more polished - 3-4x per week - Carousels for frameworks - Reels via HeyGen for personal story and thinking content - Quote cards for contrarian positions

HeyGen Video Strategy

Once avatar is finalised: - 1 video per week minimum - Scripts written in advance, mapped to content pillars - Talking head format, calm delivery, gym or clean background - 60-90 seconds for Reels - Posted to both @kade_dunstone_ and cross-referenced to relevant Body Recode content

Launch Sequence

1. Profile complete — bio, photo, link
2. First 5 posts live before any outreach
3. Warm outreach to 20-30 people
4. Regular cadence begins

First 5 Posts:

Post 1 - Arrival “I’ve spent 20 years helping people understand their body. Most of the work was never in the gym.”

Post 2 - Contrarian position “The problem is not effort. Effort is everywhere. The problem is that nobody reads the situation before prescribing to it. That’s true in coaching. And in most areas of life.”

Post 3 - Rebuild framing “I’ve rebuilt my identity three times. Each time I thought I was starting over. Each time I was actually going deeper.”

Post 4 - The system “I stopped writing programs and started building systems when I realised that programs solve yesterday’s problem. Systems solve the pattern underneath it.”

Post 5 - The connection “Body Recode is the result of every rebuild. An interpretive system — read the body before prescribing to it. That principle started with my own body and became a framework for everyone else’s.”

04 BRAND 2 — BODY RECODE™

Positioning

An interpretive performance coaching system for high-functioning adults whose bodies have stopped responding to effort.

Upstream of training. Upstream of nutrition. Upstream of recovery. Interpretation before prescription.

Platform

Instagram: @body_recode_ **Facebook:** Body Recode

Bio:

Performance coaching for people whose bodies stopped responding.
Body state interpretation. Training. Nutrition.
↓ Find out which state you're in (2 min)

\$

Bio link: bodyrecode.au/scorecard?source=instagram

Funnel

All traffic goes to the Body State Scorecard first. Never direct to purchase. From the scorecard, two funnels run in parallel:

- **Funnel A (consultation):** Scorecard → Performance Check-In → Consultation → coaching client. The warm, higher-touch path.
- **Funnel B (challenge):** Scorecard → free 14-Day Body Decode Challenge → the Blueprint (\$97) → coaching / membership. The self-serve proof path - the free Challenge lets the read prove itself before any purchase.

The scorecard is the shared front door; the two funnels give both a direct consultation route and a low-friction, proof-first route.

Target Audience

High-functioning adults 30-50. Corporate, finance, law, consulting, medical. \$100K-\$180K+ AUD income. Disciplined. Frustrated. Not lazy. Primary: Women 35-50. Secondary: Men 35-55.

Content Pillars

1. Body State (Depleted, Transitioning, Ready)
2. Why effort isn't working
3. Cortisol and fat storage
4. Prescription without interpretation
5. The intelligent approach

Posting Cadence

5x per week: - Monday: Authority (7am) - Wednesday: Pattern Recognition (12pm) - Friday: Coach Perspective (6pm) - Sunday: Diagnostic - Scorecard CTA (8am) - Tuesday or Thursday: Contrarian or Reels

Paid Ads

3 ad sets running simultaneously at \$10/day each (\$30/day total): - Silent Frustration — Statement card - Contrarian — Photo card - Diagnosis — Body states carousel (3 slides)

All destination URLs tracked by source. Run 14 days before evaluating. Cut 2 underperformers. Scale winner.

Ads trigger: 3 scorecard submissions per week for 2 consecutive weeks.

05 BRAND 3 — AI CO-FOUNDER METHOD

Positioning

A structured framework for founders and business leaders who want to use AI strategically — not randomly.

Not a prompt guide. Not a tool tutorial. A system for integrating AI as a thinking partner across the entire business.

Product

- Ebook: \$37 AUD

- Ebook + Bundle (templates, prompt vault): \$47 AUD
- Instant digital delivery via Stripe

Website: aicofoundermethod.com

Target Audience

Founders, solopreneurs, business leaders who know AI is important but are using it reactively. Broader than Body Recode — crosses industries. Entry point: anyone building something who wants structured leverage.

Platform

Shared with personal brand initially — @kade_dunstone_ feeds into this product. No separate social account needed at this stage.

Content Angles

- “AI doesn’t make you smarter. It makes your current thinking louder.”
- The difference between using AI as a tool vs a co-founder
- What happens when you give AI a role instead of a question
- Building repeatable workflows vs one-off prompts
- The IP extraction process — Pause, Reflect, Document
- How Kade uses AI to build Body Recode

Funnel

Personal brand content (Threads + Instagram Pillar 3) → aicofoundermethod.com → \$37-47 purchase

Low friction. No discovery call. No application. Straight to checkout.

Ads (future)

Once Body Recode ads are optimised, run a separate Meta campaign for AI Co-Founder Method. Cold traffic → landing page → purchase. Price point allows direct purchase without a funnel.

06 THE ECOSYSTEM LOGIC

How the three brands work together

1. Someone discovers @kade_dunstone_ through a post about performance, identity, or AI
2. They follow because the thinking resonates
3. Over time they encounter Body Recode through performance content
4. Or they encounter AI Co-Founder Method through AI and leverage content
5. They buy or apply based on which problem is most relevant to them right now
6. One person can buy both products at different points

Revenue Stack

PRODUCT	PRICE	TYPE	AUDIENCE
AI Co-Founder Method (ebook)	\$37-47 AUD	One-time	Founders, creators
Body Recode Scorecard	Free	Lead gen	Health + performance
Body Recode Coaching (online)	\$149/week	Recurring	High-functioning adults
Body Recode Coaching (in-person 2x)	\$299/week	Recurring	Brisbane local
Body Recode Coaching (in-person 3x)	\$409/week	Recurring	Brisbane local

Content Cross-pollination

- Body Recode content never references AI Co-Founder Method
 - AI Co-Founder Method content can reference Body Recode as a case study
 - Personal brand references both naturally as the work Kade is building
 - HeyGen videos can serve all three channels with different scripts
-

07 DASHBOARD BUILD PLAN

Three sections to build in the dashboard:

Section 1 — Body Recode Marketing (already exists under Business) - Strategy, Content System, Paid Ads, Calendar, Pages

Section 2 — Personal Brand (Kade Dunstone) - Positioning, Story Library, Content Pillars, Script Library, Posting Cadence, Platform Spec

Section 3 — AI Co-Founder Method - Positioning, Funnel, Content Angles, Ad Strategy, Sales Tracking
